RX OPTIMA

RACK-TYPE DISHWASHERS
WITH 3R+ REINFORCED TRIPLE RINSE

Thanks to the rack-type dishwashers of RX OPTIMA series, new efficiency goals are met. The 3R + three-step rinse system ensures considerable savings in terms of water consumption and unmatched quality results. The reduction of heat losses granted by walls thermal insulation, the heat recovered from the steam produced inside the machine (with optional HDR), are just some points of strength of this product range, whose main innovation is an important reduction of waste.

Their user-friendly design characterizes both the washing process and the daily cleaning and maintenance operations. The wide TFT screen makes the access to operating functions easy and comfortable. The IPX5 control panel, the rack-washing arms, the machine sanitization and the automatic drain options, make all the end of the day operations much more comfortable.

FEATURES

STANDARD

- TFT 5.7" display and soft touch keyboard
- IPX5 electronic board
- Easy-access frontal panel
- Constant monitoring of key operating parameters with integrated HACCP interface
- Detailed information and history of alarms in 6 languages
- Chemicals level management and related alerts/information
- SMART DRIVE+ advancement system with 10 speeds
- ECO-DET Detergent economizer
- Triple reinforced rinse 3R+ with adjustable water flow
- 1-DRAIN centralized drain
- Break Tank with integrated booster pump
- Thermal and acoustic insulation, insulated tanks
- Battery auto-cleaning for heat recovery system (if HDR option present)
- Control function for water, energy consumptions and working time
- Possible working modes for dryer unit: all off, only fan or total power + fan (4,5 kW or 9 kW, maximum power according to the model)
- Preset maintenance reminder
- AISI 316 stainless steel tanks and boilers

OPTIONS

- Automated tanks and boiler fill/drain through SA servovalves
- Detergent dispenser with probe or dispensers kit
- Extra power for boiler
- HDR200: insulated dryer + heat recovery system
- HDRA 209M and HDRA218M, insulated, on 90°/180° motorized chain conveyor
- Machine sanitization with dedicated booster pump
- Stainless steel pumps
- CONNECTIVITY remote control compliant with the HACCP norms

AS OPTION

AUTOMATIC SHOWER WITH FILTER DRAWER EASY

Time and energy savings are increased thanks to AS and EASY+, a combined and specific filtering device. Dishes will only need a superficial manual clearing and the automatic shower of the AS module will do a pre-treatment action. (Not available with an installed LC option).

LC OPTION

90° CORNER PRE-WASH

The design of our 90° corner pre-wash ensures the best solution taking up the minimal amount of space. Smaller dimensions, same productivity (Available on selected models and without AS option).

HEAT RECOVERY

The heat recovery system allows to supply the machine with cold water*, ensuring at the same time significant savings in terms of energy consumptions. The steam produced by the machine in operation (otherwise dispersed in the working environment) is aspirated and condensed in the heat exchanger (air –water). The heat produced through this process is transferred to the inlet water, bringing it to a temperature of approximately 45 °C and reducing energy consumptions.

*inlet water temperature between 8 °C and 15 °C
